

WisDOT I-39/90/94 Study team seeks your input Through an interactive online survey

The Wisconsin Department of Transportation (WisDOT) is studying a 34-mile stretch of Interstate 39/90/94, from Madison to Portage.

The goal of the study is to create a long-range plan to improve safety and mobility on and near the Interstate, including intersecting roads that carry traffic to and from the Interstate and we are seeking your input.

Please take a few minutes to provide your thoughts using the new, interactive MetroQuest survey located on the study's website. The web address for the survey is <https://i399094.metroquest.com>.

The survey will allow you to provide feedback on a variety of improvement concepts and strategies being developed by the study team as well as any other ideas you care to share.

The survey will be available on the www.i399094.dot.wi.gov website from February 15 through May 15, 2016; at which time it will be taken offline and the feedback collected for review. We look forward to hearing from you.

Sincerely,
Rob Knorr, P.E.
